Here are two videos I would like to share with the council tomorrow.

The first is last weekend. This car drives up and down duke street every weekend night with an exhaust that they can make backfire. it literally sounds like a heavy gun shot and they can make it happen at will. This goes on from 9pm to 3 am most weekends.

https://youtu.be/olmm7U-53rc

This second video is from two weekends ago and the sounds you hear are from 1 mile away with a hospital between my front porch and the drifting competition. this is 12:30am on a Saturday night.
